

AquaActiv fish-medicine: for the all-round well-being of fish

1 Parasites

2 Fungal infection

3 Bacterial infection

4 Fish lice infestation, anchor worms

5 Skin worms & gill worms

With the OASE AquaActiv fish medicine you can support the recovery of your pond inhabitants if there is disease or new stock in the water. Competent, reliable and highly-effective; the products ensure the health and well-being of your fish. The company, Aquarium Münster, developed these products especially for OASE. The specialist in the area of fish medicine has more than 80 years' experience in the keeping and medication-based treatment of ornamental fish.

The OASE online clinic for fish

Proper enjoyment of the garden pond is only possible with healthy and active pond inhabitants. But how do you support the fish when they are not doing well? For this, first it is necessary to make the right diagnosis. The OASE Online Clinic on our website helps you in this regard. Here, in clear and understandable manner we have presented irregularities that indicate presence of the major fish diseases.

And you will also find the right recommendation for proper treatment.

Click: www.oase-livingwater.com/fish_disease in the topic area »Application«, chapter »Fish diseases«.
